

SPECIAL COVERAGE > GSA CONTRACTS

Cable protection

The company offers high-, medium- and low-capacity cord covers, cable ramps and cable protectors that protect cable at work, office, facility and event sites. The Yellow Jacket abrasion- and traffic-resistant cable protector stands up to continuous heavy traffic in

outdoor environments, like construction sites and industrial facilities. The Yellow Jacket cord protector with Hiperthane is suited for high abrasion environments such as dry docks and military applications. The Linebacker heavy duty 2-,3-,4- and 5-channel cord protector system is suited for temporary events, such as fairs, festivals, conventions, construction projects and any other event where cords and hoses cross trafficked areas. GSA discounts apply.
