CableOrganizer.com Offering Full Line of Belkin and Other Economical Surge Protectors that Thwart Costly Device Damage

Industry leading eTailer advocates surge suppressors as best line of device defense against damaging power surges, spikes and line noise

FORT LAUDERDALE, FL, December 7, 2009 - Power surges are very common occurrences that have many triggers beyond the turning-on and shutting-off of electronic devices, including nearby lightning strikes, power line disturbances, and high-frequency electromagnetic noise. Because such surges in electricity can quickly destroy electric components plugged in to a power source, industry leading eTailer CableOrganizer.com (<http://CableOrganizer.com>) advocates that consumers and businesses alike utilize economical [surge protector](#) appliances to thwart costly device damage caused by voltage spikes.

“[Surge suppressors](#) come in many shapes and sizes, but all serve a common purpose: to regulate the excess voltage supplied to electronic devices during power surges by blocking and grounding any amount of current that exceeds a safe threshold,” notes CableOrganizer.com product specialist Christina Hansen. “Also, while all surge protectors act as power strips, it’s important to know that not all power strips provide surge protection. Be informed when you’re shopping for a surge suppressor, so that you don’t end up with a device that gives you nothing more than a false sense of security.”

For those wanting to assure that their equipment is adequately protected from fluctuations in electric current, CableOrganizer.com offers an extensive array of [Belkin](#) brand and other home/home office, home theater and business/commercial [surge protection devices](#) to suit all budgets and applications from its Web site located at <http://CableOrganizer.com/surge-protector>. Selections include:

[Belkin Clamp-On Surge Protector](#)

The Clamp-On Surge Protector is one of the most versatile surge protectors known. You can clamp it just about anywhere and have surge protection. The Clamp-On Surge Protector easily secures to the edge of a desk, workbench, table, or sawhorse, and can be just as easily removed.

<http://cableorganizer.com/belkin-surge-protectors/clamp-on-surge-protector.html>

[Belkin Compact Surge Protector](#)

The Compact Surge Protector safeguards your electronic equipment while staying out of your way. It's compact enough to sit on the floor, next to your desk, against a wall, or even behind furniture. The integrated cable management on this surge protector also allows you to keep your cords tidy.

<http://cableorganizer.com/belkin-surge-protectors/compact-surge-protector.html>

[Belkin Concealed Surge Protector](#)

This innovative solution to cable clutter provides advanced surge protection while keeping your cords hidden. The unique closing cover keeps your plugs and cables out of view so they don't become a distraction to children or pets. This new design features 11 outlets, 1 telephone line splitter, Ethernet, and coaxial connections with surge protection.

PowerSquid® Home Theater Surge Protector

The PowerSquid® Home Theater Surge Protector is one of the most sophisticated and effective power appliances around. The enhanced reach, flexibility, and room for adapter plugs make the PowerSquid® easier to use than traditional strips. This model comes equipped with a fail-safe circuit and alarm to protect your equipment in the event of a lightning strike or severe power surge.

Smart Strip Power Saving Surge Protectors

Smart Strips allow you to save money on your electric bills by turning off electronic devices that are not being used. This failsafe method works even when you forget, so that your home doesn't waste energy. On average, the Smart Strip has been known to save over 260 watts or more per hour to save even more on energy costs.

Socket Sense™ Adjustable Surge Protector

Socket Sense surge protector prevents the congestion commonly associated with power adapters with ease, regardless of their size or shape. You simply need to expand or contract the movable 45° sockets to adjust for your best fit. Now you can do the job of 2 power strips in one. The unique design makes Socket Sense ideal for use with home theater systems, cell phone adapters, computer equipment, and much more.

<http://cableorganizer.com/socket-sense/>

SmartSockets® Tabletop Surge Protector

This surge protector is the perfect accessory for any meeting room. A 16-foot cord helps make this tabletop surge protector easily accessible and allows you to place it in the center of a room. Its circular design allows for connection of up to 6 AC adapters or plugs.

APC P7GT Power-Saving SurgeArrest

APC's P7GT Power-Saving Essential SurgeArrest not only safeguards your equipment from damaging power transients, but also helps lower your electric bill. The "Master/Controlled" outlets are designed to detect when your computer is asleep, at which point they automatically power "off" connected peripherals to prevent wasteful power consumption.

Tripp Lite Home/Business Theater Surge Suppressor

Offers advanced protection to prevent damaging surges up to 3345 joules. These Tripp Lite surge protectors are ideal for small to medium home/business theater installations using high-definition TVs, satellites, DVD/CD players, and A/V receivers.

<http://cableorganizer.com/tripp-lite/home-business-theater-surge-suppressor.html>

Tripp Lite ISOBAR Surge Suppressors

Tripp Lite Isobar Surge Suppressors provide superior protection to any of your home, office and theater systems. Isobar surge suppressors include sine wave tracking, phone-line surge suppression and fire-safe, all-metal housings. Isolated filter banks allow the amount of noise received by units to be significantly decreased by using multiple locations to cancel any outside interference.

Tripp Lite Home Theater, Ethernet & Audio Power Surge Suppressors

Tripp Lite Surge Protectors offer reliable, state of the art protection for any application. Equipped with 8 or 10 outlets, child safety covers and an 8 or 10 foot cord with space-saving right angle plugs, these devices have diagnostic LED's to warn the user of any problems. Another feature of these Tripp Lite Surge Protectors is the built-in RJ11 jacks that prevent any damage to your modem, fax, and phone equipment on two lines simultaneously.
